Message from Vasant

*November, 7th, 2004, at the "AGRO-ECO-HOMA"
Festival in Piura Peru*

In the last days many, many will come to HOMA farms across the globe for REFUGE. In the last days all around will be chaos. At places of fire there will be harmony. Let us work towards that aim. Let us see the bridges and not the roadblocks to PEACE within and all around us, locally and globally.

We are running out of time. This planet is in line with new changes to come. We know the situation and this is the reason why the HOMA THERAPY work is intensifying now.

From wherever we are, if we look through our own backyard, we may not see the bigger picture. If we move beyond our own point of view to a view which encompasses all of humanity we will realize our own small details are nothing in light of what others experience on this very same planet. So let us be grateful for all that.

Man has gone awry. His creations, his great industry and colossal empires will crumble and then he will come to know what is DIVINE and not until then. Until man realizes that he is not the Almighty he will remain separate from ALMIGHTY. The moment he humbles himself and bows before ALMIGHTY he will begin to become ONE with that POWER.

In times of Jesus there was a great vision of LIGHT and manifestation of the FIRE.

FIRE was used to cleanse every temple and was placed upon every altar in every temple. If you look into history, deep into it, you will find that.

AGNIHOTRA is the "sacrifice" foretold by Archangel GABRIEL in vision given to Daniel (Daniel 8:26 New English Bible). Agnihotra has tremendous potential to heal humans, animals, birds, plant kingdom, etc. *[Please refer to www.terapiahoma.com--Ed.]*

Those who work in the field of environment and ecology will find AGNIHOTRA pyramid fire tuned to the biorhythm of sunrise/ sunset to be greatest material aid for happy living.

To cure emotional imbalance, best medicine is Agnihotra because if you set up a rhythm of sunrise/sunset fires, the body becomes balanced, particularly the nervous system. Agnihotra is the best antidote. Also best to take Agnihotra ash three times daily.

Any time you feel stress one can sit for these healing fires and breathe in the smoke from these fires and that will alleviate it. Someone else can be performing the fire. It does not matter.

Fear contracts muscles; it tightens everything in the body and goes against the very therapy

trying to reduce the stress. So treat FEAR as an uninvited guest: Say, “No thank you. I am not interested.” Fear has the effect of weakening the whole system.

There will be new strains of diseases spreading. At the same time there will be old ailments resurfacing but with conflicting symptoms defying age-old cures. All of this, those of you who are practicing Agnihotra, will be immunized from.

Agnihotra is food which nourishes all the cells of the body.

One can go deeper into meditation particularly at the times of sunrise/ sunset Agnihotra. Concentration, contemplation, meditation. One cannot expect to close one’s eyes and be in that state of MEDITATION. One needs to begin first to focus on the flame of the fire, on a MANTRA repeated in the mind or on the lips, on the sound or NAME or on the sound of one’s own breath. Once the mind begins to focus, it achieves the next stage of CONTEMPLATION. Continue. In this way the mind is slowly quieted; thoughts drift away. ONE BEGINS TO ENTER THE STATE – NOT THE ACT – OF MEDITATION.

It is during this state of meditation that the body and mind become rejuvenated. Studies

have been done that prove the heart rate slows down, breathing becomes calm. This has a positive effect on stabilizing blood pressure, soothing nerves, helping people who have trouble sleeping at night or for whom breathing is normally burdened.

Meditation assists in mental and emotional disorders, stomach and nervous disorders. It also assists children who have difficulty focusing and paying attention in school.

Agnihotra creates the perfect atmosphere conducive to MEDITATION by removing the stress of atmospheric pollution on mind and body.

The planet is on the brink of disaster. From a practical standpoint let us try to become more self sufficient.

Let us grow our own food by HOMA organic method without chemical fertilizers, pesticides, insecticides, herbicides, etc. It has been proven on a large scale that if you do not use agrochemicals then you can produce larger quantities per hectare with better taste, texture, disease resistance, nutritional value and longer shelf life.

Let us start producing HOMA nursery seeds, and learn how to stock them and trade them among HOMA organic farmers.

Homa Farming

If you own land, try to buy adjoining bordering land as much as possible for HOMA organic agriculture.

Learn to store grains for six months at a time. Use of Agnihotra ash in stored grain will be of much help. Also store matches, any emergency care items and WATER. THIS IS FOR PROTECTION ONLY and not out of fear.

The world is standing on the precipice of destruction. IN THE LAST MOMENT THIS PLANET WILL BE SAVED. All the ecological calamities which have befallen this planet are necessary for earth's evolution. Man has gone so far astray from the course of NATURE that in order to even maintain the present state of eco-balance great changes have to occur. The present state of this planet's ecosystem is simply unacceptable if we want to see a future race. That means Earth is in a state of peril.

We are working with the power of a lion, the might of a warrior and the GRACE OF DIVINE. Wherever these Holy Fires are performed GRACE unfolds.

With the application of Homa Therapy I see that my plants are now more beautiful--all my plants and flowers, mangos, lemons and avocados. They are as beautiful as if we had applied manure, but we don't give them anything else but the treatment with Homa Therapy, that is Agnihotra fire at sunrise and sunset and four hours daily of Om Tryambakam Homa; on full moon and new moon we do 24 hours of the Om Tryambakam fire. The whole family joins.

In the lemon trees I have not seen any problem with the white louse, or with the "Acarus". In the previous years we have had many problems. All the plants are being regularly fumigated with the Agnihotra-ash-water-solution.

In spite of not practicing at all the Om Tryambakam Homa, but by practice of Agnihotra alone we have been able to observe in a short time:

--There is a reduction in the attack of the "Acarus del Tostado" in citrus fruits.

--The papaya cultivation that we planted when we started Homa Therapy is completely healthy. There are no plagues or diseases in this plantation.

--I have visited an adjacent cotton field and it is totally healthy. There is a lot of biological control. An absolute (100%) control is observed over plagues and diseases.

--The bean cultivation is totally healthy, it has developed a natural, biological control. We previously have always had problems with this cultivation. The last cultivation was attacked at the end with "Odiosis", even though we sowed it with manure, used fertilizers and pesticides.

--For the first time it has been observed that our sheep jump the fence the same day they are born, because they are bigger and have more vitality, even though due to the economic crisis we are not able to give them any concentrate or anything of that type. And we have had only female offspring.

Owner of a 3.5 hectare farm, applies Homa Therapy. Healthy and abundant harvest with Homa Therapy

I am farmer of the lot number one of Santa Rosa. I have three and half hectares, almost all lemon. We began with the Homa Therapy on February of this year (1999). My farm was in a bad shape. I was discouraged working, because everything was so bad. I needed to buy lots of insecticides, but our economic situation was so bad that we could not do the necessary fumigations. Just at that time the Homa Therapy arrived and we took advantage of this Therapy.

The diseases "Acarus, tristeza, fumagina, minador" and several other diseases attacked the lemon trees. Right now they are recovering with the Homa Therapy. The lemon fruits have developed a lot. Before they were small, but now they are beautiful and much bigger.

The quality and the quantity of the fruits have increased. The fruits that are inside the 40 hectares area which is treated with Homa Therapy are developing well; in contrast the other ones outside the area are small.

The new papaya plants are totally healthy. The diseases of "virosis" and "gomosis",

which we had before in the papayas and was transferred from generation to generation, is no longer there.

The yucca and the corn have also developed better.

We use a tablespoon of Agnihotra ash in 4 liters of water and we let it set for 3 days ; then we apply it to the trees as a spray or fumigation. This application heals the sick plants.

Yes, yes. We see a war raging in the Middle East, continued conflict in Iraq with grave consequences. We see an environment over-toxified and its inhabitants ill-prepared for the times to come.

We strongly urge those able, to pursue lives of self-sufficiency, alternative sources for fuel, alternative sources for electricity, dependable pure sources for water, and adequate food storage at least of grains now.

We see a land acidic from toxicity and over-use. We see alternative methods of Biodynamic organic farming, the best of which would employ methods using ancient Ayurvedic techniques of purification of atmosphere, Agnihotra and other fires that heal and transform the Earth, soil, topsoil, water, air, and the plants from roots to leaves.

We see apathy growing amongst 'civilized' cultures not yet hard hit by calamity. Yet, simultaneously, the awakening of those for whom shocking revelations of political corruption, the encroaching dreaded reality of World Domination, and environmental deterioration, have jolted them out of a state of false comfort into awareness. Indeed, the lines are divided. One can choose left or right. The middle road is an impossible one to navigate. One must make one's choices

now. LIGHT OR DARKNESS. FAITH OR FEAR. It has come down to that.

We are harbingers of the great future for planet Earth. We are calling the forces of Nature toward us to work in harmony with us. Do not cease your efforts dear workers for the Light, to bring humanity into harmony with Nature and to save this glorious planet from destruction. Be inspired and steadfast. Be fully committed to TRUTH, NON-VIOLENCE and to your fellow humans. Do not be perturbed or disappointed by blockages from outside, by delays or disturbances! Continue one-pointed in the face of all danger or discouragement. LIGHT SHALL PREVAIL.

Oh yes, "May the force be with you!" Do keep your sense of humour. It shall serve as a lifeboat in the sea of madness. As you continue your way to the Light, know that it is within you and surrounding you. OM TAT SAT.

Yes, yes. There will be more and more Light experienced through dreams and visions by those of you who have been called into service at this time. Many will experience it through subtle senses, intuition or through feelings simply. Others will be guided specifically during these times to ensure the safe passage of Light Workers into Light. There is

never cause for fear, dear ones. Never is there cause to abandon your walk in Light. Even during periods of your life when it appears you have perhaps gone astray. Do not fear. Once the hand is held, the Divine does not abandon you. Once the contract has been made between you and your Guides, there is no turning back, unless you so desire. And, even then, there is a strong pull in the positive direction that will subdue desperation or discouragement during these most powerful times. Remember, there is strength in numbers and we wholly encourage you to gather. Gather in the name of the Almighty, in the cause of Truth and in the healing of this planet Earth. Support and shelter each other. The care you show to others will reverberate and stir peace and love throughout the world. So, love one another. Forgive one another. Let all voices be in perfect pitch, in perfect harmony as you raise them all together in song. Hallelujah!

Yes, yes. As man has ordered his universe in an attempt to establish reason and logic, we shall then appreciate the effort and cooperate within its existing structure. While we know the concept of TIME is arbitrary, we also know that man is in dire need of defining this universe and having it make sense to him. Therefore, the revolution of seasons, the months of the year, days of the week, and time on the clock. TIME. Man, however

defined by "time", has delved into only the face of it. He sees or is aware only of time as it applies to his life on the planet. This short-sighted approach is at the root of man's failure to protect and defend his own environment! His short-sightedness prevents him from taking extreme measures to preserve his remaining natural resources and from curbing the spread of infectious diseases he caused in the first place.

Long-term effects on the planet's natural resources, natural habitat, and the planet's longevity simply have not been considered. Warnings go unheeded. Reports go unpublished. Those who predict the end is near are dubbed as "Doomsayers". And we know we stand for human rights and for the rights of Nature and for the planet's great importance as the record-keeper of this universe. And we know the interaction of other planets and their effects on this one, and the effects of the planet Earth on the solar system. Doomsayers, no.

We are calling in the Light. Ready or not. Your choice, Earth brothers and sisters. Greatest efforts to save your beloved planet are being orchestrated now in the heavens above you. We shall all await your arrival into Light. We shall continue to call you until every one of you with open eyes have heard the call. Be blessed and be awakened. OM TAT SAT.

Healing with Homa Therapy

**Ascension Rojas Baca

Problems:

- * **Hearing**
- * **Pains**
- * **Asthma**
- * **Cramps**
- * **Insomnia, etc.**

I am 73 years old and I am a sportsman; I run. On August 11th, 2003 I began with Homa Therapy in Piura. The first day I came to the Homa Therapy session in the Hospital Reategui, I truly didn't understand anything because I was half deaf. The following day, a Tuesday, I understood more or less a little something. The third day I felt in my left ear a sound like "clack" and like "shhhh" and from that moment on my hearing is much better.

The reason I participated in Homa Therapy was my suffering from insomnia and asthma. 10

The fourth day of practicing Homa Therapy I had an asthma attack during the training. I returned immediately to the brother who is in charge of the Homa Therapy teaching in the hospital and he told me that there are sometimes reactions in the beginning, sometimes diarrhea, sometimes pain. So I returned the following day again to the Homa Therapy, feeling better already. On Friday I had another asthma attack; I could not even run a block. But already the following day I was running 10 kilometers as if nothing had ever happened.

I suffered from pains in both elbows; I felt as if my fingers were shrinking and they hurt when I had to carry some weight. This problem also disappeared with the Homa Therapy. On the sixth day with Homa Therapy I felt that nothing hurt any longer, and I continued with my sport. My elbows and knees were better and I no longer had headaches.

When I completed 14 days of participating in the healing fires and taking the Agnihotra ash, a championship here in Lima (Videna) came up. When I arrived on Saturday it was raining. I, who had always suffered from bronchitis, said, "How am I going to run in this rain?" But at 9 in the morning I was told to go to the training track and warm up the body. There were nine people in my category. I was afraid of running in the rain and I told

myself that now I will ruin my health. But since we were called, I just began to run, run and run. Previously the brother in Piura had told me, "At the time you run, in order to have enough strength, repeat the Mantra 'Om Shree, Om Shree, Om Shree', and so I was running repeating Om Shree, Om Shree, Om Shree... And I completed the 5000 meters race in 25 minutes. The previous winner had done it in 29 minutes, so I was 4 minutes faster with that power I felt.

Then in the afternoon there were the 800 and 400 meter races. When I was running the 800 meters, I felt a pull in my thigh and held back a little, but still I made third place. I was somehow concerned because the race of 4 x 400 meters would begin in one hour. 4 x 400 means more speed. I had taken the Agnihotra ash in the morning and at noon. I grabbed some more Agnihotra ash with water and began to rub my leg, I thought just in case...

After one hour the race started. I was free of pain and I won the 4x400 meters! I had won the 5000 meters and in the 800 meter race I achieved third place!

Well, it was time to go home. I was concerned that I would get cramps at night, because my whole life after returning from races I had cramps, cramps, cramps. But I didn't get any cramps the whole night.

The following day was another race. I ran the two races in my category and I won both of them. At noon we had to say goodbye and I told my children that I wanted to go back to Piura, but they asked me not to go. They said that I would be screaming with cramps in the bus, as it had always happened before. But again I did not have any cramps. My wife said, "Every time you return from Lima you come with bronchitis, but now you are fine." I confirmed that I felt well and told her that I was no longer using the medications "Sinutab" and "Enerbolo" because they obstructed my breathing. Now I feel fine and take absolutely nothing.

Homa Therapy healed my pain in the elbows, in the fingers, in the knees, my headaches and my deafness.

Then on December 31st we run every year 10 kilometers and I also won in my category. A clinic gave me a gift certificate saying that they want to do a complete check up. They did all the analysis and sent me to another clinic for an electrocardiogram. They put a heap of apparatuses on my legs, arms, and everywhere. The young lady that assists the doctor didn't understand the results, so the doctor looks at them and said, "Your heart is like one of a 25 year old." I asked, "Am I well, doctor?" "Very well!" he said, and gave me a big hug. Later on he told me that all these exams are done out of courtesy and that he

will attend me and do more exams. Now I have come again to Lima. I think that all these good results are because of the Agnihotra healing fires and the Agnihotra ash that I have been taking from August on and I will continue taking.

Problem:

- * **Vesicular Litiasis**
- * **Constant dizziness**

Dr. Montufar:

This was a case of vesicular litiasis (gall bladder stone) and therefore the patient was in pain, a colic type pain in the right side. The patient underwent a complete Homa treatment and he took additionally some B com-

plex vitamins and received acupuncture. Let's listen to the patient himself:

Mr. Julio Ramirez:

When I came I was in a bad shape with dizziness. All I ate in the evening harmed me. If I ate something heavy during the day, I immediately got diarrhea and was constantly dizzy. I am a photographer and I work in different schools. At that time I had to be present, but I was constantly dizzy. Then I decided to visit the doctor, and the treatment I received healed me; I could continue my work peacefully. At the moment I still follow the rules the doctor gave me, because of the excellent results.

Problems:

- * **Pains**
- * **Gastritis**
- * **Immobility**

I am from Arequipa. For many years I felt pain when urinating. The first experience I had with Agnihotra and taking a little bit of its ash was that the next day I felt no more burning; I could urinate normally.

Also with my suffering from gastritis, I felt a deep relief.

Because of pains in my shoulders I could not sleep many nights. I spent the time awake until 4 or 5 in the morning and then grabbed a few hours of sleep. With Homa Therapy the pains have become less.

The pains began when I was thirty-five years old and those of the shoulders when I was 30 years old. It started with the left arm. I could hardly move it. Now, after more than thirty years, I can move my left arm and the right arm, which was operated on and used to hurt a lot, does not hurt any longer, thanks to Homa Therapy. I have stopped taking the medication; I only take the Agnihotra ash. I have experienced relief in only three Agnihotra sessions.

- Problem:**
- * **Alcoholism**

I am over 40 years old. I came to this therapy thanks to my sister and my mother. I brought them and I stayed watching. At the second Homa Therapy it began to work on me. I have been a heavy alcoholic. I have been drinking for many years from the moment I got up until dark. I could not sleep, so I took daily at night two bottles of rum in order to sleep.

I saw that Homa Therapy has an effect on me. Instead of the two bottles of rum at

night, I only drank one. I continued attending the Homa meetings and taking the Agnihotra ash. Then I got my own pyramid to practice the fire of Agnihotra. I began to lower the alcohol and then a moment arrived where I could sleep placidly at night without alcohol, without pills or any other thing consecutively for two or three days. Then came my birthday and I did not drink anything, not a sip; people were astonished. After one and a half weeks, I stopped drinking. Although I had a setback, not with rum, but with beer, but with a little. Before I did not know when to stop. Now for two and a half weeks I have come to the Homa Therapy and I can say that I have not been drinking for one week. I have been praying, I am making new Christian friends and new Homa friends. I feel very well.

This Therapy helps me to get rid of the different bad habits which are alcohol, cigarettes and other stimulants.

Problems:

- * **Arthrosis**
- * **Rheumatic fever**

Dr. Montufar:

The patient has a case of hemolytic beta streptococcus that has caused an arthrosis

seemingly together with a rheumatic fever; but thanks to the treatment with Homa Therapy the patient has recovered tremendously in approximately two weeks.

Janet Isabel Olvera Franco:

I am 38 years old. I had problems with my bones. They hurt a lot and now, thank God and thanks to the doctor, I feel very well and calm. Since I was seventeen I have suffered from this and now I am 38 years old. My right hand was swollen and I could not touch anything wet; when I washed some clothes, I would spend a horrible night; my hands hurt a lot and I always complained. I have attended the Homa Therapy fires for one and a half months and I also take the Agnihotra ash. Before this I also didn't sleep well. I would spend the night awake and since I have been coming for the Homa treatment I sleep well until the following day. I told my family about this too. I come almost daily to participate in the Homa Therapy.

From Vasant's Talks

Parama Sadguru Shree Gajanan Maharaj is all power of the universe. No one knows with whom they are dealing. I only appear to you as a man. He has taken all from me. I am merely an instrument of His Grace. There is no Vasant. I am whatever is required that I be at that moment. If I am to speak on science I am versed in it. At times I have been asked questions regarding certain scientific terms. I knew the answers only at the moment. If you have experienced this on a small scale then you must know what experiences I have had available to me.

Mantra is sacred instrument. Do not forget this. In times like this you should be repeating Mantra constantly.

The wicked destroy themselves with their own karma. You have been sheltered and protected from the world all this time. You were told not to worry, not to fear; everything will be taken care of. Can you imagine being in the world, desperate and Vasant says, "No need to worry". For some, these words are all they need to hear. How many times were they spoken to you? You have got such a big ego. You ask how one becomes humble. You cannot "think humble thoughts" or "do humble deeds". It is just something that develops in the heart and it comes from love and faith. Don't ask for anything but forgiveness.

Whatever negative effects were created are destroyed by Love. There is love in your heart. Anger can color one's soul. Remove the anger. Then there is only Light. Have no fear. Kingdom of Heaven is nearing now.

Nothing is so important to allow it to make you angry. Under no such conditions should we get angry. People are too quick to anger. No one person is to blame but when you know how important time is it is your responsibility to use it properly. Remove your anger and your pride. It is so simple. Keep quiet. Then that impulse to anger falls away.

Let anyone say anything about you. Let not one word against another go from your lips. Continue smiling. He is testing all of us in every situation. Just say, "Thank you, Maharaj Shree," and continue to smile. So much comes from so little effort. No matter what anyone says, speak less. Smile. The confusion is only because you think you are the doer. Maharaj Shree is the power; you are the instrument. You make the effort, make the decision. If it is not correct He will correct it but you make the effort. Time is running out. You have to be strong in your faith. Maharaj Shree is greater power than you think. You have to put all faith in Maharaj Shree. As soon as you do that, the life is transformed.

FIVEFOLD PATH for Happy Living

1. Perform **AGNIHOTRA** for purification of the atmosphere which leads to automatic purification of mind.

2. Practice **DAAN** (sharing of assets in a spirit of humility to reduce attachment to worldly possessions).

3. Practice **TAPA** (becoming better managers of our energy expenditure by training the body and mind to react to all circumstances in life with Total Love).

4. Perform **KARMA** (every action for self purification only and thus no expectations which bind us to the material world).

5. Practice **SWADHYAYA** (Self-study) for liberation. Who am I? Why am I here? My work on this planet is to learn to react with total LOVE with each opportunity given to me.

This is the Fivefold Path for happy living on the planet. By practicing the Fivefold Path you become better members of your society, group, religion, community, etc.
