Homa Therapy and Radioactivity

Vasant

In Eastern Europe, an experiment can be made concerning radioactivity in the soil. This we can foresee having a dynamic effect on the well-being of Europe on the whole.

By utilizing ancient techniques of fumigation as well as farming and using the ash of Homa fires as well as the Homa fires themselves, radioactivity IN THE SOIL can be eradicated or at least greatly reduced. This will be sufficient evidence to render this science of Homa Therapy completely sound and effective in treatment of various radioactivity situations including physical illness in human beings and the animal kingdom, as well as plants and water resources.

Resonance Hut in Organic Farming

Vasant

(Some likely explanations which the scientists need to investigate further.)

22 April 06, Maheshwar, M.P. INDIA

One Eastern European scientist said that in nature a lot is based on resonance. In dry soil resonance effects may be less far-reaching than wet soil. Here we are thinking about improving soil to grow more food. Also getting rid of toxic substances may be easier in water or wet soil. The molecules of the toxic substances have to be broken down and for this, the electrolytes present in water are of great importance.

You need more energy to neutralize toxins in the air than water or wet soil.

Can we analyze how toxins are split down in HOMA atmosphere of ten pyramid resonance system? Are some biological structures influenced in such a way to help break down these toxins? Planet Earth is considered a living organism. Experiments testing the soil for pH value and examining the varieties of microorganisms can be another test. Measurements can be taken in certain time intervals before and after the start of HOMA RESONANCE POINT SYSTEM.

Resonance will help to split poisoning chemical molecules.

Resonance will build microorganisms. Loss of microorganisms is a big problem in agriculture now. Percentage of O₂ is getting less and less. For breaking CO₂ into carbon and oxygen, a lot of energy is required. Plants do this job normally.

However, areas covered by forests are getting smaller and smaller. Equally important are the oceans for production of oxygen. The algae in the seas produce the major quantity but now seas are dying.

IT WILL HELP TO STUDY THE HAARP PROJECT OF USA ALASKA BY WHICH A LOT OF ENERGY IS BROUGHT INTO THE ATMOSPHERE BY A LOT OF SMALL ANTENNAE WHICH CREATES A CERTAIN MANIPULATION OF THE IONOSPHERE. THIS CAN HAVE AN EFFECT ON THE WEATHER OF DISTANT COUNTRIES AND ALSO ON MINDS OF PEOPLE IN LARGE AREAS.

Of course, this is the negative aspect of resonance technology which we do not want. But this shows how resonance mentioned in HOMA Farming technology may be a beneficial tool. Experiments made by U.S. help us understand how MANTRAS affect our brain. These tests should examine the range of 10 to 100 Gigahertz

Message

(The following message in the voice of Parama Sadguru Shree Gajanan Maharaj was heard in meditation by Parvati Rosen-Bizberg on May 17, 2006, 12:42 A.M.)

On this planet, there is suffering in all homes, rich and poor. Those of you who have received the Light, it is time to move with that Light.

FIRE represents Us. Wherever there is AGNIHOTRA FIRE, We are there.

Only when the suffering becomes acute, do those who are near defeat call out for help. Answer the call at the moment it is made. When you are attuned, it will be always like that. Just at that moment when another being is near defeat, his voice will rise in a call for help. You will find again and again, you will be there, even without thought or premeditation—just knowing. Times are such that every split second is precious time.

Be aware of all that stands before you, but do not let it form a shadow to block the Light.

We are ever beside you, always before you, always near at hand.

Light will expel darkness.

Use the fire to strengthen and heal you.

No obstacle, no barrier, no wall of separation stands between us.

As the veil is lifted, purification is intense. Focus more on the blessings given. These are to nourish your soul for the times ahead.

We are always with you, all children of Grace.

May you walk in Light, all days of your lives.

OM TAT SAT.

Breakthrough--Healing AIDS and Cancer with Homa Therapy

(Translated from original Spanish.)

Homa Medical Center
"The Good Shepherd"
Leonidas Plaza 2829
Guayaquil - Ecuador - South America
Tel. 593 - 4 - 234 2583 cel. 593 - 9 - 9442
3830

I would like to inform through this letter that we have been practicing the fires of the Ayurvedic Medicine, Agnihotra and Om Tryambakam Homa, for the last six years in our Homa Medical Center, "The Good Shepherd", Guayaquil, Ecuador, South America. These fires are an important part of our patients' integral medical treatment. The results are surprising. We have an average of 50 patients daily and many of them report improvements with this Homa treatment in less than 21 days.

We have also noticed acceleration in the healing process of patients with cancer, AIDS, diabetes, arterial hypertension, even in systemic Lupus Erythematosus.

Yantrams, Agnihotra Ash and Shiva Lingams are usually part of the Homa treatment.

Attached to this letter you will see the docu-

mentation which related two cases where the allopathic medicine had given up on them.

1.) Illness: Hodgkin's Lymphoma

The patient was given two months to live. He improved within 45 days and didn't present any tumor after 2 months.

2.) Illness: HIV Positive

A 20-year-old patient was diagnosed HIV positive by the National Institute of Hygiene of Ecuador. She did not receive any retroviral treatment.

The tests of Webster-Lock gave negative results. This happened after 60 days with Homa treatment (Agnihotra fire and the consumption of Agnihotra Ash). We treated this patient additionally with Aloe Vera and Dulcamara plant, prepared in darkness with honey from bees and Agnihotra Ash. The plants, because of their photosensitive character need to be consumed in darkness. The plant preparation was taken once per day, for 30 days. The patient has a 3-year-old daughter who is also HIV positive and who is also receiving this Homa treatment. We already could take her daughter out of a coma due to pneumonia. Her enlarged liver has diminished more or less 30%.

We have many more cases and we hope to present them to the community soon.

Homa Heals Subsoil Water

*Lee and Frits
Ringma*

We pray for the quick recovery of all our patients.

Report from Hunter Valley, New South Wales, Australia

Om Shree Dham Homa Therapy Teaching and Healing Centre

The Gift of Water

Perhaps the most miraculous demonstration of how Homa heals Nature with Divine Intelligence and Love, and how Nature in turn responds to the true needs of the people who are helping her, is the story around our bore well.

When we purchased the land in 1994 it was in drought and the only source of water was harvested rainwater held in concrete tanks. With ongoing drought, we had to resort to recycling our water. The bath water washed the clothes and the dishwashing and clothes washing water watered the non-food trees and plants. One day, a water diviner turned up and after thoroughly dowsing the land, he told us there were no underground streams to speak of. However, we had a bore well drilled, despite the prognosis of the diviner.

Attracting Healthy Water Resources

SUB-ARTESIAN WATER WAS FOUND AT THIRTY-THREE METRES (100 FEET). IT WAS LABORATORY TESTED AND FOUND TO BE HIGHLY SALINE AND ALKALINE, SO HERE WAS AN OPPORTUNITY TO SEE WHAT HOMA THERAPY COULD DO. WE DID

AGNIHOTRA BY THE BORE AND REGULARLY PLACED AGNIHOTRA ASH DOWN INTO THE BORE WELL. THE STATE DEPARTMENT OF WATER RESOURCES WAS CONDUCTING REGULAR TESTS ON THE BORE WELLS IN OUR NEIGHBOURHOOD AND WE WERE ALL AMAZED TO SEE THE SALINITY AND ALKALINITY DROP WITH EACH LAB REPORT UNTIL WE HAD POTABLE DRINKING WATER.

The story does not stop there, however. Another diviner, highly renowned for his intuitive ability, recently turned up at Om Shree Dham to learn about Homa Therapy. He was interested in divining the land. After walking the land, he came to us saying that the underground water was acting very strangely. He said it traveled along a certain course, then made a sharp ninety degree turn, proceeded under the fire hut and to the other side of the property and then turned back on itself and continued back to the original course along the other side of the property. We asked him to show us where it turned back on itself. It had made a beeline for the borehole and then returned to its original course! We had not told this diviner that we had a bore well and, as a shed is built around it, there was no way he could have known it was there.

The Beauty and Effectiveness of Homa

Over the years, we have experienced and it

has been noticed by others frequently, how the land has taken on a much greener, lush and harmonious mantle compared to the surroundings that reflect the harsh, over-farmed nature of the Hunter Valley in general.

IN DROUGHT, WE HAVE HAD SO MANY INCIDENTS OF TIMELY RAIN NURTURING RECENTLY PLANTED SEEDLINGS. IT HAS EVEN HAPPENED THAT IT WOULD RAIN OVER OM SHREE DHAM ALONE, MIRACULOUSLY DEMONSTRATING THE PRESENCE OF THE HOMA BIOSPHERE.

Agnihotra News from Australia

Frits and Lee Ringma

Agnihotra Teacher Training

A 6 week live-in Agnihotra Teacher Training Certificate course will be conducted at Om Shree Dham by the end of 2006, to provide appropriate training for those wishing to teach Agnihotra and Homa Therapy to others on a voluntary basis. You are invited to contact us for details. We have limited accommodation so first in, first served.

Homa Therapy Apprenticeships and Community

We are also inviting people to apply for Homa Therapy 18 month live-in apprenticeships here at Om Shree Dham. The apprentices live and work beside us participating in the full daily Fire program, in the Homa Farm work and administration work, accompanying us on teaching tours and when installing Homa Resonance systems on farms etc. It is our experience that Homa Therapy can only be integrated by living it on a daily basis. On completion, the apprentices will have the opportunity either to stay on and become part of Om Shree Dham community or they may choose to set up their own Homa communities/farms or even be travelling Homa Therapists helping people to set up Homa biospheres.

Prospective apprentices will first be required to finish the 6 week certificate course for Agnihotra Teacher training. Please apply in

writing telling us why you feel this is your calling.

The Homa Valley in Creation

We see a time when the more appropriate name for this valley will be Homa Valley as opposed to the Hunter Valley and we encourage interested people to buy land near Om Shree Dham to set up their own Homa farms. In this way we can join up the biospheres, contributing to planetary healing. We can exchange our individual skills and specialties, becoming self sufficient on a regional basis and being a great example to others of a viable, self- sustainable, peaceful way of life.

Homa Therapy Research Program at CSK Himachal Pradesh Agriculture University, Palampur India

Karin Heschl

On Himachal Day the 15th April 2006 Homa Therapy Farming program was begun with the first sunrise Agnihotra Homa through the Hon'ble Vice-Chancellor Dr. D.S. Rathore. On that occasion the exact location of the resonance hut as well the four resonance pillars were selected using the topographic map of the university and GPS device.

On 5th June the resonance hut was inaugurated with sunset Agnihotra Homa, again through the Hon'ble Vice-Chancellor Dr. D.S. Rathore. A team of twenty top scientists have dedicated themselves to study organic farming techniques under the guidance of Prof. Dr. Atul, of which Agnihotra Homa Therapy technique is the most exciting method. On 7th June the four hour continuous Om Tryambakam Homa was started near the entrance to the organic farm. Since the first day, also the people living adjoining to the university have been attracted to the Homas.

The university will work on different fields of experimentation, such as Soil Study, Plant Pathology and Microbiology, Tea Husbandry and Technology, Agricultural Economics, Agro Forestry and Environment, Entomology, Animal Science, Livestock Production, Residual Chemistry, Vegetable Science, Food Science and Nutrition, Horticulture etc. This research program is the first of its kind where more than 20 scientists work together to

study the effect of Homa Therapy, a science of medicine, agriculture and weather engineering as given through the Vedas.

The time period for the research has been estimated three years. We will frequently visit the farm. We are very happy that science has taken up the investigation into this ancient knowledge and hope they will enlighten us to grow plentiful healthy vegetables, pulses and crops to maintain food security for the world.

Prof. Dr. Atul, Dr. Saini, Dr. Kapoor and Mr. Reiner selecting center point of the farm using GPS device.

Piura, Peru

Problems:

- * Depression, mood swings
- * Asthma

"My problem was not of physical nature. It was that I had no motivation, no desire to work. But when I came to know the Homa Therapy my life changed a lot and I have now more strength to work.

It was also wonderful to see how my mother got healed from her asthma through Homa Therapy.

Beside that, everyone in the house used to get up in a bad mood and when my mother started with the AGNIHOTRA fire everything improved."

Darwin Vicente Bazarro Carranza

Ecuador

- Alcoholism**
- Plagues on trees**

I have experienced some good things with Homa Therapy. For example, I liked to drink a lot but with the help of Homa Therapy I am now drinking less and less. I had a bad temper, but now I am more passive. The Agnihotra ash also keeps me in good health.

In the field, I also observed some changes. For example, an avocado tree was full with plagues and had no leaves. I began to treat it with Homa Therapy. I watered it with Agnihotra ash and it rejuvenated completely. Now it has lots of leaves and no more plagues. I also put Agnihotra ash on an 'Arazan' tree, which is now giving good fruits.

Problems:

- Glaucoma**
- Asthma**
- Muscular Pains**
- Wounds**
- Stomach Pain**

I suffered from severe asthma from birth. I also had muscular pains and wounds on the skin. I suffered from glaucoma. I had stomach problems, gas, indigestion, etc.

I have been curing myself practicing the Agnihotra healing fires, and prescribing myself Agnihotra ash and ghee. Now after 8 months with Homa Therapy I am practically healthy. The doctor has been surprised about

the results, including the healing of the asthma and of the glaucoma, which disappeared completely.

My 14-year-old niece had rash scars on her wrist, which did not heal with the ointments and creams prescribed by the dermatologist. I applied Agnihotra ash prepared with ghee to her for 6 days and after that she was completely healed.

I have also seen how the Yantrams stop pains.

- Behaviour**
- Studies in School**

My grandson Carlito is 10 years old and also practices these healing fires. He has improved his behavior remarkably and has the best grades in the school. (Only "A's"). At the moment my grandson and I are sharing these medicinal fires with many relatives in different places of Peru.

From Orion Transmissions

as received by Parvati Rosen-Bizberg

May 20, 2006

Yes, yes. We have renewed interest in rain-producing YAJNYAS, as this is of particular need now in many regions on different continents. These ancient rituals stem from VEDIC culture, but in all indigenous cultures on the planet, there existed, at one time or another, fires which were used to regulate and stimulate crop growth, to stimulate rain production, to inject nutrients into air, water, soil, and to act as a deterrent to abhorrent social behaviour in humanity. This in itself is a powerful statement, as much of the ancient culture of these various tribes on different continents is still largely unknown.

Historians discover artifacts that tell stories and they assume they have a complete picture, but—especially in the case of the ancient Egyptians and some African cultures—they have only scratched the surface. **It is the wisdom of the old which will awaken the new.**

Yes, in ancient civilizations, there were complex, highly evolved methods of climate control, based on certain rhythms of Nature and science of vibration. If one examines any of these ancient cultures—Mayan civilization, the Incans of Peru, Aboriginal tribes of Australia and New Zealand, Egyptian and African tribal customs—you will uncover miracles which appear to have occurred spontane-

ously, but which in fact were the desired results of secret tribal rituals performed by those known as priests or Shamans. Training for the positions of power was often long and rigorous.

What those of you who perform YAJNYAS have in your hand is an ancient tool for healing the Earth. This is precisely the tool used in olden days in many ancient cultures, perhaps called by a different name but using fire to heal and transform the elements and assist the elementals in achieving balance in Nature.

In ancient times, it was said that humans often fell into disharmonious interchange. When this occurred, they called upon the Elders, imbued with healing abilities and further vision, to bring them back into harmony. This was often done through FIRE and the chanting of sacred MANTRAS known by those Shamans/priests in ancient tongue.

When there was drought on the land, FIRE rituals were performed to call upon the Gods of Rain to bring nutrition to the crops in the fields, nourish the trees and bring nutritious rainfall to the people of Earth.

So, to bring both Nature and human beings into a state of balance and harmony, ancient practices of FIRE were relied upon to heal,

bring nutrition to Earth and balance amongst all living beings.

WHAT WE HAVE TODAY IS A PLANET IN PERIL, SO FAR REMOVED FROM ITS ROOTS IN ANCIENT CULTURES THAT, IN ORDER TO RETURN TO ITS TRUE NATURE, A COMPLETE PURIFICATION MUST BE DONE. AS THE CHAOS AND CORRUPTION REACH A CLIMACTIC CRESCENDO, THE EARTH WILL ERUPT, SEAS OVERFLOW, AND THE SHIFT WILL OCCUR. IT IS NATURE'S ONLY RECOURSE TO SAVE HER LIFE FORCE. THOSE WHO REMAIN WILL BE THE ONES TO BRING IN THE NEW WORLD. AND PEACE SHALL SURPASS CHAOS. AND HARMONY SHALL AGAIN UNITE THE CREATURES OF THE WORLD. AND EARTH WILL ACHIEVE ITS BALANCE. AND THERE WILL BE PEACE, BLISS AND PROSPERITY FOR ALL WHO WALK THE EARTH. AND YOU WILL SEE THIS. YOU WILL SEE THIS. OM.

Letters to Satsang

This summer, Ron and I are moving to a home here in Albuquerque to create an off-the-grid/Homa supported space, and we have been guided to a specific location to do this. Our intention is to create a template home from which we can teach others to live this way.

I would like further training in additional Homas, specifically for agricultural purposes, and am guided to learn from your people.

Our daughter Dana, her husband Alex, and our fourteen-month-old granddaughter are moving in with us so we can create this together. We are now seeing people moving to Albuquerque to be near The Ayurvedic Institute, and several of our staff members are similarly being guided to train and prepare because we know we will be needed to serve in new ways in the future.

Blessings and love to you all,
Ellie Hadsall

Letter to Tapovan--Agnihotra Timings

Dear Bruce,

I had obtained the sunset and sunrise timings from you for the area in which I live in Delhi/India. This locality is called Sarita Vihar. The timings sent by you differ from the timings reported daily in the newspapers by three to four minutes. In your calculation you seem to have taken a twilight factor of 0.0024 degrees into account. This will advance sunrise time and retard sunset time as compared to the normal calculation of taking horizon for calculations. Why is that so please?

Thank you.
Rajinder Sandhir

Dear Rajinder,

There are several definitions of sunrise/sunset given in ancient knowledge of Vedas. For Agnihotra only one special definition is to be used. That is where refraction of the sun's rays entering the earth's atmosphere is NOT taken into account. Because of the refraction effect (bending of the sun's rays) the visual position of the sun which we see with the naked eye is actually an optical illusion. For Agnihotra we require the true position of the sun, not this optical illusion position.

Normally the timings of sunrise/sunset given in the newspapers and other media are adjusted timings taking into account the refraction effect. But for Agnihotra these timings are not useful. The difference between the newspaper timings and the correct timings for Agnihotra as given by our software is about 3 to 4 minutes which you have correctly noted. So for Agnihotra please ignore all timings from newspaper and any other sources and use only the computer timings which I have sent to you.

Hope this clears your doubts.

Best regards,
Bruce Johnson

FIVEFOLD PATH for Happy Living

1. Perform **AGNIHOTRA** for purification of the atmosphere which leads to automatic purification of mind.
2. Practice **DAAN** (sharing of assets in a spirit of humility to reduce attachment to worldly possessions).
3. Practice **TAPA** (becoming better managers of our energy expenditure by training the body and mind to react to all circumstances in life with Total Love).

4. Perform **KARMA** (every action for self purification only and thus no expectations which bind us to the material world).

5. Practice **SWADHYAYA** (Self-study) for liberation. Who am I? Why am I here? My work on this planet is to learn to react with total LOVE with each opportunity given to me.

This is the Fivefold Path for happy living on the planet. By practicing the Fivefold Path you become better members of your society, group, religion, community, etc.
